

FORESTRY & WOOD PRODUCTS IN OREGON

Oregon's wood products industry is a traded sector, with close to 75 percent of all products made here sold outside the state. This state dominates U.S. production of softwood lumber and plywood. Now, it's also a leader in engineered wood, and home to the first mill in the United States to manufacture structurally certified cross-laminated timber (CLT). Oregon forest landowners practice sustainable forestry and comply with the Oregon Forest Practices Act.

Lumber	5.5 billion board feet 16% of total U.S. production (No. 1 in U.S.)
Plywood	2.5 billion square feet 28% of total U.S. production (No. 1 in U.S.)

40 MILLION TREES PLANTED IN 2017

FORESTLAND OWNERSHIP (acres)

Federal	17.8 million
Large private	6.6 million
Small private	3.6 million
State and other public	1.1 million
Tribal	484,000
TOTAL	29.7 million

Nearly half of Oregon's 63 million acres are forestland.

OREGON TIMBER HARVEST BY OWNER

A BALANCED APPROACH - FORESTLAND MANAGEMENT CLASSES

Oregon's forests are managed for three primary purposes: timber production, multi-resource, including recreation, water and wildlife, and reserves with limited timber harvest that are set aside as parks or wilderness areas, or to protect endangered species habitat.

TIMBER PRODUCTION
MULTI-RESOURCE
RESERVE
